

Melius & Hockenberry Environmental Services, Inc.

Services Provided

- ◆ River Reach Information
- ◆ Assists in Gathering of Field Information
- ◆ Preparation of a Quality Assurance and Quality Control Report
- ◆ Development of Multiple Databases relating to Water Quality and Geomorphology
- ◆ Chemical evaluation of 120 tributaries
- ◆ Chemical evaluation of 85 discharges
- ◆ Development of final report

PROJECT PROFILE: *Clearfield Creek Watershed Assessment*

Project Summary

MHES worked in conjunction with the Cambria and Clearfield County Conservation Districts in a watershed assessment of the Clearfield Creek Watershed.

The assessment took place over a 2-year period in which 120 tributaries, 85 discharges, geomorphic characteristics and overall land use within the watershed were evaluated.

***This project was a significant watershed assessment completed with funds from the Pennsylvania Growing Greener Initiative.**

The project was completed in spring 2004
